

## **Following the Leader**

Words and music ©2007 Christopher M Solaas

### ***Verse 1:***

Well it seems that from the moment  
That my knees first hit the floor  
And I thank You for another day  
Like I did the day before  
I will get my 'marching orders'  
From the King who rescued me  
Now I follow in His footsteps  
Wherever He may lead.

### ***Chorus:***

Now I'm following the leader  
Down the passages of time  
Through the many hardships and the wonders we may find  
Every day's a new adventure  
I don't want to fall behind  
Following the leader  
Down the passages of time

### ***Verse 2:***

When I was just a youngster  
I would play this with my friends  
We would follow where that leader went  
Until the journey ends  
And the coolest thing about it  
Is that you would never know  
The adventures you would find  
Where that leader chose to go.

### ***Chorus:***

### ***Verse 3:***

You should pick your leader carefully  
For if he's not so nice  
He could lead you on a bed of coals  
Or out upon thin ice!  
If you want, I know a leader  
Who is worthy of our praise  
He's so good, that you can follow all your days.

### ***Chorus: (twice)***
